## Teppanyaki

Art. 698012

The built in teppanyaki grill from JOKODOMUS is made for the ones who want the most flexible fry top in their kitchen. Avoiding the use of pans while cooking vegetables, fish or meat directly on the stainless steel griddle surface enables punctual temperature transmission, in steaming or frying technique. Of course all this will be done without additional fat and unhealthy burning on. A smart technology; and finally also the cleansing is easy to do.
